DEFEAT TURKS AT KUT-EL-AMARA

British Drive Encmy From Bastion of Fort.

EXPECT ATTACK ON SALONICA

Large Teuton Forces Face Allies In Balkans-Indian Troops In France Leave For New Field of Activity-Destination Unknown.

London, Dec. 28.-The British forces in Mesopotamia, which have been slowly retreating before superior Turkish forces appear to be in a precarious position at Kut-El-Amara, where they have entrenched to make a last stand. There is even a fear that they have been surrounded.

General Townsend, who is in command of the Mesopotamian army, reported that a fierce battle raged there with apparently 25,000 Turks engaged. A breech was made by the Turks in the fort defenses and a body of them managed to enter. Later, however, they were driven out, leaving two hundred dead behind.

Later severe fighting for possession of the fort occurred and the Turks managed to capture the northern bastion. They were forced to retire from the bastion, however, and having suffered heavy losses, did not return to

The British forces at Kut-El-Amara are more than a division, though exactly how much more is not publicly known. Some time ago, when the British were driven out of Ctesiphon, twenty-five miles below Bagdad, and began the retreat which has now brought them to Kut-El-Amara, there was much criticism of the war office in the house of commons, because, as was said then, no more than 25,000 men had been sent on so important an expedition.

Since the retreat began the war office has been almost daily attacked for the failure on the Tigris. The present precarious position of the Mesopotamian army is, therefore, a matter which may have a good deal to do with the threatened disruption of the government.

The Times, reviewing news from sees many indications of a formidable converging attack on the Franco-British positions. The paper believes that an attack will be begun within a few days by Austro-Germans and Turko-Bulgarians under one command and in a common direction.

The Bulgars, evidently to form the center, the paper says, will have the brunt of heavy work. The Austro-German column, it is understood, is cabinet which many prophesy will concentrating near Monastir. A couple of Turkish divisions are stated to Turks probably are to join them.

Reports from Salonica are extreme- Wilson Shows Leniency to Federal ly hopeful, and there does not seem to be the slightest likelihood that the defences can be rushed.

DAVID-LLOYD GEORGE THREATENS TO RESIGN

British Cabinet on Brink of Another Rupture.

28.—David-Lloyd George has threatened to resign his place as minister of munitions and quit the government unless compulsory service is inaugurated. He made his declaration to Premier Asquith before the cabinet went into session to decide one way or the other on the question of conscription.

Great Britain is on the brink of another governmental rupture. The cabinet has split on the matter of compulsory service. After an all-day session it is understood that certain of the ministers refused to be convinced and to give their vote to Lloyd-George's demands. It being impossible to arrive at any agreement the session was adjourned.

Lord Derby's enlistment plan has failed. That at least appears certain various sources respecting Salonica, as a result of the cabinet's disagree- zenship of the state department, re-

No one but realizes the seriousness of the present crisis. If Premier Asquith fails to make good his pledge that conscription would follow a failure of Lord Derby's enlistment campaign, his own position, in the opinion of many, will be in a very precarious state. Again Lloyd-George is mentioned as his successor in the new soon be formed.

SEEK TO PREVENT BREAK WITH U. S.

Austria Prepared to Offer Concessions.

NOT TO ACCEPT ALL DEMANDS

Believed Vienna Will Refuse to Disavow Submarine Attack on Ancona or to Punish Submarine Commander -United States to Stand Firm.

Washington, Dec. 28.-That the Austrian government by half-way concessions will seek to prevent a severance of diplomatic relations between Vienna and Washington is a forecast put forth in Austro-German diplomattic quarters.

Whether this forecast is borne out in dispatches received at the state department from Vienna and Berlin could not be learned. Because of the extreme delicacy of the situation, Secretary Lansing is taking extraordinary precautions to prevent such information from becoming public in advance of the receipt of Austria's reply to the second American note on the Ancona incident.

That hope for an amicable settlement of the controversy has not been abandoned, at least by Germany, is indicated from the fact that the German ambassador, Count von Bernstorff, who returned to Washington from the Adirondacks, where he spent Christmas, is prepared to resume negotiations with Secretary Lansing for a final disposition of the Lusitania

In German embassy circles there is every confidence that, in spite of Germany's unwillingness to go the whole length demanded by the United States in this dispute, the matter will be adjusted within a short time to the satisfaction of both countries.

There seems to be a disposition at the state department not to complicate the Ancona controversy by an inquiry at Vienna into the submarine attack on the Japanese liner Yasaka Maru, which is reported to have had on board an American citizen, is said to have been torpedoed without warn-

Investigation by the bureau of citisulted in a report to the secretary of state that, as, far as the official records go, it cannot be shown that Leigh, the passenger said to be an American, was actually of that nation-

Whether the half-way concessions which Austria is preparing to make, according to embassy gossip, in response to the American note, will serve to prolong the controversy or precipitate a break officials of American government are not prepared to say in advance of the reply. That they will fail to satisfy this government seems likely.

Austria, according to this forecast, will offer to make reparation for the lives of the American citizens who perished and probably will give assurances for the future conduct of her submarine warfare in compliance with the rules set up by the United States in its correspondence with Germany She will not, it is predicted in diplomatic quarters, either disavow the attack or punish the submarine commander. The demands of the United States to Austria were for disavowal, reparation and punishment of the submarine commander.

ARLANZA IS SUNK BY MINE

Hit Floating Mine Off Russian Port of Archangel.

London, Dec. 28.—The British steamer Arlanza was sunk by a float ing mine off the Russian port of Arch angel, according to information which reached shipping circles in this city.

The news was suppressed by the British censor, according to present information, for fear that neutral ship owners would become alarmed at the navigation dangers in Russian waters. The Arlanza was owned by the

Royal Mail Packet company, had a displacement of 15,044 tons, being only slightly smaller than the Arabic. She was 570 feet long with a 65-foot beam. The British censor allowed to come

through on Dec. 10 that three steamships had been sunk by submarines, but there was no word of the disaster to the Arlanza.

To Facilitate Medical Research.

Chicago, Dec. 28.—The University of Illinois has announced it will erect during next summer, a \$200,000 building near the Cook county hospital for medical research work. This will be the first institution of the kind in America in connection with a state university.

Colorado Farms

Crop Payemnt Plan One Crop Makes All Payments

You should buy a farm in Eastern Colorado, where no irrigation is necessary to produce same crops now grown in Iowa, Indiana or Illinois, with average acre yields just as great as those obtained in those states and you can make all deferred payments to us out of the crops produced upon the land. You may live on the land and plant the crops yourself or pay us to do the work for you. We will take all of one crop of winter wheat or half of two in full for all payments and deliver you the warranty deed. At time of entering into purchase contract you must pay us one-third of total purchase price of the land. Farms are situated from one to sixteen miles from railroads and towns. Price depends on location. Land is all level or gently rolling fertile prairie. No stones, stumps or swamps. Crops can be planted day new prarie is plowed. Some improved farms for sale. Fine climate, low taxes. Good roads. Cheap fuel and lumber. Best domestic water. Good ago I was an invalid due to stomach said the husband. "I didn't expect to neighbors and markets. Prices from \$12.00 to \$25.00 per acre. One crop to best of health." Obtainable every

NEW RAILROAD CONTRACTS FOR FOUR YEAR PERIOD

Agreements Based Upon Weights Taken for 105 Days After February 18, Last.

Washington, December 28.—The postoffice department has made public, through the second assistant postmaster-general, the contracts with the various railroads operating in Indiana, for carrying the mails for the four-year period beginning on July 1, 1915. The contracts were made on the basis of the results shown in the quadrennial weighing period, which started on February 18, 1915, and continued for 105 days.

The Indiana contracts were included in those made for the district comprising the states of Pennsylvania, Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Iowa and Missouri.

The Indianapolis to Louisville branch of the P., C., C. and St. L., 111.68 miles long, will receive \$281.-46 a mile a year, the total being \$31.-

branch of the P., C., C. & St. L., 8.05 miles long, will receive \$88.92 a mile a year, the total being \$715.80 a

The Louisville to North Vernon branch of the B. & O. will receive \$192.93 a year for each of its 57.60 miles. The annual rate of pay will e \$11,112.76.

The Jeffersonville to Watson branch of the B. & O., 7.33 miles ong, will receive \$42.75 a mile a The Cincinnati to East St. Louis

branch of the B. & O., which is 335.66 miles long, will receive \$527.-57 a mile a year, the total being \$177,084.14 a year.

FIGHT ON GRIPPE BEGIN

New York Board of Health Trains Its Hickorynuts, new large, per bu. . 25c Guns on Epidemic.

New York, Dec. 28.—Health department guns were trained on the epidemic of grippe in this city when the The New Albany to Louisville bureau of public health and education spread broadcast thousands of cards bearing this significant couplet:

> "Cover up each cough and sneeze "If you don't you'll spread disease."

This is the beginning of a campaign dinary rapidity of extension and for which Dr. Charles F. Bolduan, of the health and education bureau asserts there is no specific cure. The next best step, therefore, is prevention. The cards have been sent to the pubto passengers.

TEACHERS MUST HAVE FUN

Noted Educator Declares Social In terest Is New Phase of Education.

Boston, Dec. 28.—Mrs. Mary Shenck ful exertions; it is of great help to Woolman, the noted educator connected with the teachers' office of Columbia university, told a large gathering of the leading professional women of the city at the Women's City club that if they would get out and dance and have fun they could "take many nails out of their coffin."

Mrs. Woolman declared social interest is one of the new phases of education and that women, especially those teaching young children, must consider it seriously. Teachers must know about home and social life, she said, if they are to be a success.

Bears This in Mind.

"I consider Chamberlain's Cough Remedy by far the best medicine in the market for colds and croup," says Mrs. Albert Blosser, Lima, Ohio. Many others are of the same opinion. Obtainable everywhere.

TAXING POWER OF STATES The following was delivered by Justice Charles E. Hughes from the United States supreme bench in a recent case and is important as it may result in more drastic tax legislations by certain states:

"A tax is an enforced contribution for the payment of public expenses. It is laid by some rule of apportionment according to which the persons the members of which, by reason of erations. their membership, or the owners of cretion may lay such assessments in the close of 1915. proportion to position, frontage area, ted by commissioners. And as we arbitrary character is mere confiscation of property, it cannot be maintaxing power."

sults during the coming year.

Summed up, France's last year has been largely one of preparation. She hopes the coming year will be one of execution. People here call the new cabinet the Cabinet of Victory just as they call the new French loan of about 20 billion francs, the Loan of

The Frenchman hopes for peace during 1916. He considers the American peace talk the greatest puzzle of the year because peace now could mean but one thing; defeat for the

The elevation of Joffre to his new position is an official commendation of his war policy, summed up by the experts as wearing the enemy down by "attrition," which Joffre calls, "nibbling." Naturally this policy will be in force so long as Joffre is in the saddle. France made three heavy drives at the Germans during 1915, (By William Philip Simms, United in March, May and September, but these drives were all feelers, I am told, to test the strength of the German line. The French soldier will tell you that French man-power will outlast German man-power, thanks to Joffre's nibbling; that sooner or later the German wall of steel will prove to be imitation; and, following a feeler the real drive will pour through the hole thus made and end the row.

A Berlin interview quotes General von Kluck as forecasting a drive towards Paris next spring. A French general told me that he hoped von Kluck was right as in that case the slaughter of Germans would be on such a vast scale that the whole world would gasp, used as it is to baths in blood. Those who have inspected the some 50-mile width of American barbed wire between Paris and the front, while not doubting that another attempt is possible, or even probable, fail to see how it mean suc-

Here then, is the forecast for 1916. Comparative quiet along the Western front until spring; then general offensives, both French and German; operations probable throughout the summer with a decision of some sort

This is a guess, but it is as good as any, whether from a general or a private. Of only one thing can one be certain; all the expert dope is

THROWS AWAY HIS CANE AND WALKS

P. McGilliard, of Muncie, Attributes Wonderful Improvement to Tanlac.

Muncie, Ind., December 27, 1915-I've laid aside my canes and walked uptown unassisted for the first time in three months, thanks to Tanlac, J. F. McGilliard, one of the best

"I had rheumatism for more than a year," Mr. McGilliard continued, "and was unable to work during that time. For the last three weeks the only way that I could walk at all was hand. My knees were so stiff I lost strength and flesh rapidly.

"Nothing helped me until I began taking Tanlac. Now I have taken just two bottles of the medicine and feel like a different man. Today I laid my canes aside for the first time in three months. I feel better than I have for a year. The pain and stiffness in my knees has been relievthrough the night, undisturbed by the excruciating pain that kept me awake months. I am gaining strength and flesh daily."

Tanlac, the Master medicine referred to by Mr. McGilliard, who, until his health failed, was caretaker of beneficial for stomach, liver and kidney troubles, rheumatism, nervous debility, loss of appetite, sleeplessness, hard coughs, colds, catarrhal ively in Seymour at H. H. Carter's

Senreco contains the best corrective and preventive for pyorrhea known to dental science. Used daily it will successfully protect your teeth from this disease. Senreco also contains the best harmless agent for keeping the teeth clean and white. It has a refreshing flavor and leaves a wholesomely clean, cool and pleasant taste in the mouth.

Start the Senreco treatment tonight-full details in the folder

wrapped around every tube. Symptoms described. A 25c two oz. tube is sufficient for six or eight weeks of the pyorrhea treatment. Get Senreco at your druggists today, or send 4c in stamps or coin for sample tube and folder. Address The Sentanel Remedies Co., 505 cinnati, Ohio.

A TRAVELER'S QUEER TALE

Told Just In Time to Save an Innocent Man's Life.

Hudson river steamer. "Is that Pough- tive to draw it out of me."

"Yes, sir," said the man addressed. to a hotel in Albany?"

"The Merton is a good house." prefer another house. The fact is I into the handle and cut a gash in my stayed at the Merton once and passed hand that bled all over the floor."

a very uncomfortable night."

"Was it the fault of the management?"

"Oh, no. The room was comfortable I was obliged to share my apartment pose? with a stranger. But we were both Before we went to sleep we got into going to get off here, I believe." an exciting discussion which heated my brain and possibly accounted for, what followed. There was another cause, however. I had eaten roast pork for dinner. Pork never agrees with me, and this especial piece was not properly cooked. When a man eats well prepared pork he's very unwise. but when he eats badly cooked pork he's a fool. We'l, the discussion grew bitter. The man's views were ridiculous, and since he was quite deaf I those occupying neighboring rooms be-

noving them. Ever been a sleepwalker, sir?"

"Never." me with a knife. I awakened with a hurry?" start, and my heart was beating most unmercifully. The other fellow was snoring in his bed. After lying awake an hour I went to sleep. Then I dreamed again, but this time the dream was on him. I dreamed that I got out of bed, took my razor out of my satchel, went over to the bed where he was sleeping and stood over him. There was a light in the hall which shone through the transom over the door so that I could see him plainly. His breast was bare, and the sleeve of his nightshirt had crawled up so far as to leave one arm bare to the elbow. I seemed to take a fiendish delight in the situation. I did not intend to kill him at once, but to take a long time about it. I drew the sharp edge of the razor

HARTFORD CITY MAN ESCAPES THE KNIFE

become not the rest of stones, which so long as they are torrent tossed maintain their majesty, but when the stream is silent and the storm passed suffer the grass to cover them and the are plowed down into the dust. -Ruskin.

PAN-AMERICAN **BOND SEALED**

Twenty-One Republics Represented in Congress.

IS NEW INTERNATIONALISM

Pan-Americanism, Says Lansing, Is Expression of Idealism Which Will Rule the World-Monroe Doctrine Is Policy of the United States.

Washington, Dec. 28.-Against a background of science and scholarship, represented by more than a thousand delegates from the twentyone republics of the western hemisphere, the doctrine of pan-Americanism was formulated in precise terms by Secretary Lansing and the opening of the Pan-American Scientific Con-

or less clearly by the Chilian ambassador, president of the congress, and each of the chairmen of the twenty foreign delegations who responded to the address of welcome delivered by roads of this country and whose nathe vice-president of the United States | tional character is attested by a memin the absence of President Wilson.

President Wilson's personal weltelegram which was read to the congress, in which he expressed the hope nents alike in sympathy and in pur-

"The Monroe doctrine," said the secretary of state, in his opening address, "is a national policy of the United States; pan-Americanism is an international policy of the Americas. The motives are to an extent different -the ends sought are the same."

"The world in its political development," Mr. Lansing added, "has progressed from the idea of individualism to the idea of idealism, and is now verging upon the idea of international-

"Pan-Americanism," he said, "is an expression of the idea of internationalism. America has become the guardian of that idea which will in the end rule the world. Pan-Americanism is the most practical form of

"Within recent years the government of the United States has found no occasion, with the exception of the Venezuela boundary incident, to remind Europe that the Monroe doctrine continues, unaltered, a national policy of this republic. The republics of America are no longer children in the great family of nations. They have attained maturity. With enterprise and patriotic fervor they are working out their several destinies.

"When we attempt to analyze pan-Americanism, we find that the essential qualities are those of the familysympathy, helpfulness and a sincere desire to see another grow in prosperity, absence of covetousness of another's possessions; absence of jealousy of another's prominence and, above all, absence of that spirit of intrigue which menaces the domestic peace of a neighbor."

REIMBURSES ITS EMPLOYES

After Reducing Wages Company's Business Picks Up.

Milwaukee, Wis., Dec. 28.—The Allis Chalmers company has mailed compensatory checks to about 1,000 office employes whose salaries were cut almost a year ago, owing to adverse business conditions. In mailing the checks, President Falk wrote to each

"In the early part of this year, business conditions with our company were so unsatisfactory that a reduction was made in your salary. The improvement has been such that it has been decided to reimburse this reduction to our present employes."

Huerta Taken to His Home.

El Paso, Tex., Dec. 28.—General Victoriano Huerta was taken to his home from Fort Bliss, his health being so bad that it was not thought advisable to have him continue living at the Fort Bliss quarters, arranged for him by the army. Because of his advanced age and his confinement he looks very feeble.

Mrs. Rockefeller's Estate.

New York, Dec. 28.-Mrs. Laura S. Rockefeller, the wife of John D. Rockefeller, left an estate having a gross valuation of \$1,490,371 and of the net value of \$1,484,598, when she died March 12, 1915, according to the report of transfer tax appraiser Joseph W. Spencer, filed in the surrogate's

Charged With Theft.

Marion, Ind., Dec. 28.-Elmer Kern, age thirty-four is under arrest here charged with the theft of \$60 from Everett Carndall. The money was taken when Carndall was asleep in his restaurant at Van Buren. The police say they found the \$60 in Kern's pocket and that he confessed.

Lott Changes Name of Paper. Plainfield, Ind., Dec. 28.-The name of the local paper has been changed from the Friday Caller to the Plainfield Messenger. The name was suggested by Miss Caroline Pike and was dale Grenfell, all through the retreat selected from names submitted to the from Mons and by myself on all other when fined \$10 for poking down horself to the selected from names submitted to the from Mons and by myself on all other when fined \$10 for poking down horself to the selected from names submitted to the from Mons and by myself on all other when fined \$10 for poking down horself to the selected from names submitted to the from Mons and by myself on all other when fined \$10 for poking down horself to the selected from names submitted to the from Mons and by myself on all other when fined \$10 for poking down horself to the selected from names submitted from names submitted to the selected from names submitted to the selected from names submitted from names submitted to the selected from names submitted from names initial Vincennes.

Suspense.

ast night I woke and saw that where The livid dawn first touched the boards Across my room through all the air There stretched a thousand silver cords

My soul then spoke to me and said: These cords are taut with love an

They mark the agony and dread Of those who wait to know the slain."

Some were like faint, blown spider's

And others gleamed like violin strings. There came no sound, but without pause They thrilled with subtle shiverings.

And as I looked a tense cord slacked.

Some heart was sighing its relief; Another stretched until it cracked.

I knew a mother died of grief.

LARGE PART OF ROADS IN U. S. UNIMPROVED.

Only About 10 Per Cent Good, Say Officials of Highway Association.

Only 10 per cent of the 2,240,000 miles of public roads within the borders of the United States are classed as "improved roads." This is the state-The same note was sounded more ment recently made by officials of the American Highway association, a body which announces that it has no other object in view, immediate or remote, than the improvement of the public bership drawn from every state in the Union and almost every sphere of officome was extended in the form of a cial and commercial activity within the United States

Last year the expenditures for road that its activities "will bind Ameri- construction, including the estimated cans together throughout both conti- cost of convict labor, made by states, counties, townships and districts aggregated some \$235,000,000 against \$79,-000,000 ten years ago, according to the figures kept by the association. But it is clear, it points out, that so far the surface has scarcely been scratched and that comparisons with the rest of the civilized world demonstrate how far behind other countries the United States is in this respect.

At the last annual convention of the association, held in Atlanta in 1914, no fewer than forty-seven road organizations were represented, and among the 5,000 delegates were twenty-two state highway commissioners or engineers. liam C. Braisted, United States navy; Its highest aim, it announces, is to Robert W. de Forest, Charles D. Norweld together in service all of the ton of New York and Alfred T. TO FIGHT TYPHUS IN MEXICAN CITIES

Red Cross and Rockefeller Likely to Send Expedition.

CARRANZA'S AID IS NEEDED

From 20,000 to 30,000 Cases Now Reported In the Capital-Other Towns Also Stricken-Scourge There as Bad as It Was In Servia Before That Country Was Cleaned Up.

The American Red Cross and the Rockefeller foundation probably will wage a campaign against the typhus epidemic in Mexico City, Puebla and Pachuca similar to their joint crusade against the same scourge in Servia if the Carranza government will accept such outside aid and give it aggressive government support.

The state department is sounding the Carranza government to ascertain its views respecting outside help in what threatens to be the worst epidemic of disease that has swept Mexico in modern times. There are now from 20,000 to 30,000 cases of typhus in Mexico City, according to information received by the state department.

That the Rockefeller foundation probably would aid to finance such a Red Cross expedition was the opinion expressed in New York following a conference between officials and Dr. Wickliffe Rose, administrative secretary of the Rockefeller sanitary commission.

The question whether the Red Cross and the Rockefeller foundation will be able to join in a campaign against Mexican typhus was considered at the meeting of the executive committee of the Red Cross society. Those who expected to attend this meeting are former President William Howard Taft, chairman of the committee; Major General Arthur Murray, vice chairman; Miss Mabel T. Boardman, Surgeon General William C. Gorgas, United States army; Surgeon General Wil-

Carranza Support Needed.

The Red Cross, which had undertaken the great work much earlier in Mexico to relieve starvation in the City of Mexico and other places there, withdrew several months ago at the request of General Carranza, who argued that since the Constitutionalist cause had triumphed Mexico was able to get along without outside aid. Accordingly General Carranza suggested to the American state department that the Red Cross withdraw, and the state department asked the Red Cross to comply with General Carranza's wishes. In consequence the Red Cross cannot now embark upon any campaign against typhus until the Carranza gov-

ernment permits such aid. Reports received by the Red Cross through the state department indicate that the typhus epidemic has become battle of Vlamartinge in Belgium, just almost as serious in Mexico as it was before the battle of Ypres, and forgot in Servia. Some physicians have died from the epidemic. The disease also is prevalent in Puebla and Pachuca.

In the state of Oaxaca there is great awoke in a hospital at Shorncliffe, Medical supplies are about exhausted.

The joint campaign of the Red Cross wasn't at the front. He couldn't tell and the Rockefeller foundation against Private Howard Trusler, and it was P. Strong of Boston was director of by that name that he went back to the expedition. This commission workmissions sent by Russia, France and

Sixty Per Cent Killed Under Federal Inspection.

Hundred Million Meat Animals Slaugh tered Each Year in United States -Tuberculosis Is Chief Cause of Condemnation.

Washington.-More than 58,000,000 meat animals were slaughtered in establishments under federal inspection during the fiscal year ending June 30, 1915. Since approximately from 58 to 60 per cent of the animals killed in the country are slaughtered in establishments where federal inspection is maintained, it appears that about 100,-000,000 meat animals are now being killed each year in the United States.

Of the animals subjected to federal inspection, 299,958 were condemned as unfit for human use, and 644,688 were condemned in part. Thus a litle more than 11/2 per cent of all the animals inspected were condemned either in whole or in part. These figures include only cattle, calves, sheep, goats and swine.

Tuberculosis was the chief cause of the condemnations. More than 32,644 carcasses of cattle and 66,000 carcasses of swine were entirely rejected on account of this disease, and in addition, parts of 48,000 cattle and 40,000 swine. Hog cholera was responsible for the next largest loss, nearly 102,-000 swine being condemned entirely on this account.

The annual appropriation for the federal meat inspection service is now about \$3,375,000, so that the cost to the people would be between 5 and 6 cents per animal and carcasses. In addition, however, great quantities of the meat and products are re-inspected. In this item there was a very considerable increase during the last fiscal year, the re-inspection resulting in the condemnation of a total of nearly 19,000,000 pounds of products of one kind or Furthermore 245,000,000 pounds of imported meat or meat products were inspected, and more than 2,000,000 pounds condemned or refused entry.

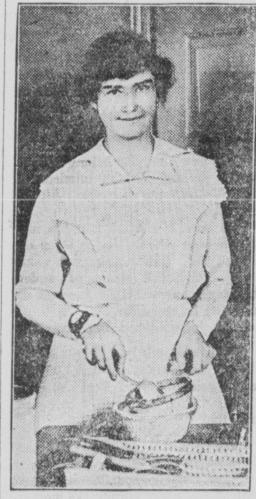

reau of animal industry, which is in | home is the corner stone of preparedcharge of the meat inspection service, ness.' has discovered a new method of destroying trichinae in pork, which is an additional safeguard to human health. Refrigeration at a temperature of 5 degrees, F., or lower, for a period of 20 days, will destroy these parasites which occasionally give rise in human beings to the serious disease known as trichinosis. Hitherto the only known safeguard against this disease has been thorough cooking of all pork and pork products, and those persons who neglect this precaution have always been more or less exposed to the danger. Unless pork is known

to have been subjected to refrigeration as above indicated, it should be thoroughly cooked. The microscopic exusual methods have proved inefficient.

In this connection it is interesting to note that more swine were slaughtered abreast. The army retreated snakein the past year in establishments un- like in double file, the line extending der federal inspection than ever be- mile after mile, the troops shuffling fore. A total of 36,247,953 were in- along like despondent, beaten men. spected at the time of slaughter, and food.

STARVING SERBS

Barefoot, In Snow, They Lived Board of Health Removes Proon Horseflesh Alone.

Only Those Who Outfooted the Bulgarians' Cannon Were Able to Escape. Road of Retreat So Narrow That the Regiments Were Forced to March In Double File.

In a dispatch from Rome to the Chicago Daily News Louis Edgar Browne tells of the sufferings of the Servian soldiers who made their way into Albania after the crushing defeat of their army at Prisrend.

"Three routes of retreat," says Mr. Browne, "were open to the army. The main route was through Lumkulus, at the junction of the Black and White Drin rivers. Another route was through Jacovitza and Ipek into Montenegro, and the last was from Prisrend southward into Albania via the old Roman road to Dibra, Elbassan and Durazzo. All three are absolutely impassable for vehicles. Each is nothing more than a mule path over high, precipitous, snowbound mountains.

"The last orders of the general staff read, 'Fall back on Scutari and Durazzo, using the three passes.' But the Austro-Germans and especially the Bulgars advanced so rapidly that the Serbs were unable to cover the retreat, for by suddenly invading Montenegro the Austrian troops captured Jacovitza and closed the Ipek passes so quickly that scarcely 3,000 Serbs retreated that way.

Retreated In Double File. "The invasion of Dular by Bulgar

bands armed with mountain batteries amination of pork for the detection of closed the Dular route, and only the trichinae has been abandoned as the Lumkulus pass was left for the retreat of 70,000 men. For twenty miles in the Drin pass three men cannot walk

"At the entrance of the pass, twenty approximately 35,900,000 passed for miles from Prisrend, were 70,000 men plain of Prisrend, dashes through a thoroughly clean meat. narrow gorge. The Servians all tried pass. Then the Bulgar artillery the pass, and after that all attempting to enter were killed.

"For five hours the artillery wreaked disposed of for meat. terrific slaughter on the nonresisting Servians, who only huddled together like sheep and turned their backs to the storm of high explosives and shrapnel. The great mass of Servians in the It practically never communicates a rear rushed forward on those ahead and shoved them to death. It was | Consequently the strict regulation of like a panic stricken crowd rushing horse meat would not be necessary, as from a burning theater. Then the Servians threw down their rifles, and the Bulgars took back to Prisrend 46,-000 of them as prisoners.

"Those who escaped began at Lumkulus a struggle for life worse than the struggle to escape the Bulgar shells.

"The first contingents were composed mainly of men with infected wounds and feet covered with blisters. Daring starvation, they arrived in Scutari in thirteen days after leaving Prisrend. They had gone through a veritable hell, and I doubt if any but the giant Servian fighters could have done it.

"When the men left Prisrend they had a three days' supply of bread. When that was finished they had nothfrage, has been responsible for the ing more except what they found by thousands of articles explaining "the the roadside. When a horse fell from skinned it and ate chunks of raw meat torn with bayonets from the carcass. I saw many soldiers eating raw horse meat with apparent relish. One of the soldiers made soup of a donkey's leg bones. The Servian Crown Prince Al-

HORSE MEAT FOOD **EVADED BULGARS IN NEW YORK CITY**

hibition Against Sale.

WERE GUT OFF AT PASSES RELATIVE VALUE IS SHOWN

"Ban Not Based on Sound and Scientific Lines," Says Commission-Declares Horseflesh Brings Higher Prices Than Beef In Brussels-Doctors Ap-

The sale of horse meat as a commodity will be legal in Greater New York after Jan. 1. As a necessary of life the horse will be placed upon the same footing with cows, sheep and poultry. This sweeping action was taken by the board of health. The city thus becomes the first in the country, so far as known, in which the legal restriction against horseflesh has been re-

"Prohibition of the sale of horse meat or the slaughter of horses for food is not based on sound or scientific grounds," declared Health Commissioner Haven Emerson. "Laws of this nature have outlived their usefulness. We are living in a different age. Conditions have to be judged accordingly."

Dr. Emerson expressed the unantmous sentiment of the board of health. He declared that in nearly every country in Europe the sale of horseflesh for food purposes has been encouraged.

Relative Value Shown.

"The relative value of horse meat abroad is shown by the experience of BRICK AND CONCRETE ROADS. our veterinarian, Dr. Ackerman, who found in Brussels that horseflesh was bringing higher prices than Argentine beef," he said.

The board of health will limit the sale of horse meat to certified prem-

"If there is any demand for horse meat certain slaughter houses will specialize in it the same as is now done with cattle and sheep," said Dr.

"Will your action have any effect upon a general reduction in the present prices of meat?" he was asked.

"This is a remote possibility," he struggling madly to enter and escape answered. "However, people who are Lumkulus pass is like a | unable to pay present prices will be funnel. The Drin river, draining the | furnished with an inexpensive and

> reason to prevent equine flesh from being edible. With our present method of control it will prove one of the safest meats obtainable. We will take special care to prevent its being sold as veal or beef. If horse slaughter houses are established they will receive the same careful inspection as others."

"Horse meat should be very desirable as a food," said Dr. D. R. Ayres. "There has been no reason offered to prevent its being placed on sale. I for one believe the action of the board of health will solve a great problem which for many years has confronted the poorer classes.'

U. S. HAS FOURTH OF GOLD.

Director of Mint Gives Figures-No Danger of Undue Expansion.

The United States has gradually acward establishing dollar exchange.

W. Woolley, director of the mint, in taking issue with the prediction of Sir George Paish, the British economist, that there was danger in the accumulation of gold in America.

"Sir George is only one of many who have predicted an era of wild speculation if the accumulation of gold here continues along at the present rate," Mr. Woolley said. "It is easily conceivable that the assembling of too much of the world's standard of value in any one country would lead to a general, possibly sensational rise in prices, but not all agree that this country is near the danger line.

"It's true, however, that the gold now in Uncle Sam's vaults will be ample for all purposes for a long time to come.

"We've experienced a great expansion of credits, but our national wealth also has increased enormously, as have our bank clearings and the velocity of circulation."

"How much gold have we now?" was mile of a fifteen foot surface \$7,744.
